Egypt New Energy Charging Stations

Overview

Hassan Allam Utilities (H.A Utilities) and Infinity have partnered with the Egyptian Ministry of Petroleum and Mineral Resources to establish a comprehensive network of electric vehicle (EV) charging stations across Egypt.Are electric vehicle charging stations a good idea in Egypt?

As Egypt accelerates its transition to clean energy, the demand for reliable and accessible electric vehicle charging stations is at an all-time high. Whether you’re a current EV owner or planning to make the switch, understanding the charging infrastructure is essential.

What is EV charging in Egypt?

A public-private led initiative is to establish an electric vehicle (EV) charging network across Egypt. The Egyptian Ministry of Petroleum and Mineral Resources, Hassan Allam Utilities (HA Utilities) and Infinity signed an agreement at the EGYPES conference in Cairo last week to roll out the infrastructure nationwide.

Can new energy Egypt revolutionize the EV charging landscape?

This comprehensive 2025 guide focuses on the latest updates and the leading role of New Energy Egypt in revolutionizing the EV charging landscape. The availability of public and private EV charging stations is key to increasing electric vehicle adoption across Egypt.

How many EV chargers will Egypt have by 2027?

The Egyptian government aims to install over 3,000 public EV chargers by 2027. New Energy is already at the forefront, working with real estate developers and municipalities to future-proof urban mobility.
