Riyadh Communications 5g base station universal

Overview

Will 5G revolutionize Saudi Arabia?

(SPA) RIYADH: Healthcare, urban living and transportation are all being revolutionized in Saudi Arabia thanks to the Kingdom’s enthusiastic adoption of 5G technology, experts have told Arab News.

Is 5G a catalyst for Saudi Arabia's smart city initiatives?

Undoubtedly, 5G technology is an important catalyst in Saudi Arabia’s smart city initiatives, providing cutting-edge connectivity for new cities like NEOM and Qiddiya and existing conurbations such as Riyadh and Makkah.

Why is 5G important?

“For residents, 5G facilitates seamless connectivity, enhances public safety, and improves transportation with real-time traffic management and autonomous vehicle integration,” said Federico Pienovi, chief business officer and CEO for Asia and Pacific as well as Middle East and North Africa at software development company Globant.

Is 5G a core enabler?

Sauvik Tegta, partner at Kearney Middle East & Africa — Communications, Media, and Technology Practice, stressed that 5G is a core enabler, supporting Internet-of-Things-based capabilities in the near term, and more data-heavy and low latency capabilities in the mid-to-long term.
