Small Solar Power Generation System in San Jose

Overview

How much do solar panels cost in San Jose?

As of May 2024, the average solar panel system costs $2.59/W including installation in San Jose, CA. For a 5 kW installation, this comes out to about $12,951 before incentives, though prices range from $11,008 to $14,894. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in San Jose?

While a 5 kW system will only cost you $12,951 in San Jose, CA, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in San Jose, CA?

.

Are solar panels a good investment for your San Jose home?

Solar panels help you contribute to the eco-friendly solutions that are so important to our environmental future. Add the increase in your San Jose home’s property value to the benefits of going solar. Factor in the savings from tax credits and lower utility bills. It all results in a solid return on your investment for years to come.

Should you switch to solar in San Jose?

A big part of switching to solar in San Jose is enjoying the benefits that come with a reliable energy source. Even on cloudy days, the solar panels on your roof convert the sun’s rays into electricity. With a battery backup system, outages don’t interrupt power coming into your home.
