Fiji Building Solar System includes

Overview

How many solar panels are installed in Fiji?

In total, around 4 MW of solar PV is installed with some grid-connected solar systems planned and many off-grid solar system planned by Fiji Department of Energy with funding from Fijian government and overseas donor agencies.

Does Fiji have solar power?

According to the annual reports of Energy Fiji Limited (EFL), there has been some solar electricity generated from 1998 to 2007 by solar PV system that was commissioned in November 1997 (FEA 2016). In 1998, this system generated around 12 MWh of electricity and was doing well for almost 6 years.

What is solar PV & how does it work in Fiji?

Solar PV has been in use in Fiji for almost three decades. One of the first use of solar PV was in solar home system (SHS) that provided electricity to power basic appliances in rural households where grid electricity was not reachable. Currently, there are two types of SHS installed in Fijian homes.

How many schools in Fiji have solar energy potential?

For solar energy potential calculation from schools, 40% of the total number of schools (that is 400 schools) with Fiji’s average solar insolation was used for calculation. Data for number of small offices were obtained from EFL’s list of commercial customers at each location.
