

12-year warranty for double-sided solar panels

Overview

How long does a solar panel warranty last?

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts.

What is a solar energy power output warranty?

Solar energy power output warranties help guarantee that your panels won't rapidly lose efficiency, which would lead to lower and lower energy savings over time. The typical solar array pays for itself in around 11 years and provides energy savings of more than \$31,513 over the following 14 years of expected panel life.

What is a good warranty for solar panels?

The typical labor warranty offered by PV panel installation companies is for 10 years and covers damages stemming from the installation process. SunPower once again tops the list in terms of warranty length and value. ADT Solar also stands apart from the competition with longer-than-average warranty terms.

Should I pay for an extended solar panel warranty?

However, we generally don't recommend paying for an extended panel warranty. In most cases, included warranty coverages are plenty long to protect your equipment through the panel payback period and beyond, which means your solar panel system will be profitable by the time they expire.
