

120-foot collapsible container in Port of Spain

Overview

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

What is a seafold 40' container?

A collapsed bundle of five SeaFold 40' containers accommodates the same slot as one conventional 40' High Cube container creating 80% more storage and operating cost efficiencies at terminals, railheads, and ports, along with reducing lifts and container movement on ships, truck, rail, and barges.

How do Spanish ports handle cargo?

Diverse Cargo Handlers: Beyond containers, Spanish ports handle a vast array of cargo. From agricultural products in Castellón to coal and steel in Gijón, they cater to specific regional needs and contribute to diverse industries.
Inland Distribution Hubs: Not all ports hug the coast.

How many containers can a collapsecon hold?

COLLAPSECON's innovative and fully automated design allows up to 4 containers to be collapsed and combined, giving them a fully laden weight and enabling them to be transported anywhere on a ship. 1/6 COLLAPSECON collapses horizontally, ensuring the container maintains its structural rigidity in any form.
