Overview

What is a drone garage?

Drone garage for automated BVLOS operations (out of sight). Developed by DJI Enterprise, the DJI Dock - also called a drone garage, drone hangar or drone in a box - is a drone garage for automated BVLOS operations. It is more than just a launch, landing and charging station.

What is a drone docking station?

They are typically designed for battery-powered multirotor and eVTOL drones, as pure fixed-wing platforms require runway space to land. Some drone docking stations also provide an enclosure that stores the drone and protects it from rain, theft and damage. These enclosures may also be used to store packages for delivery drone services.

What is a drone station?

Drone station is an advanced autonomous drone station designed to enhance real-time emergency. Drone-in-a-box solution for streamlined autonomous operations The ALTUS Drone Hangar is an all-in-one solution that streamlines autonomous UAV operations.

What is a drone port?

Drone ports may help enable a range of autonomous and BVLOS (beyond visual line of sight) missions, such as ISR (intelligence, surveillance and reconnaissance), mapping, industrial inspection, and package delivery. UAV docking stations may include the facility to download flight logs and data from the drone's sensors and payloads.
