

15GW solar modules and supporting projects

Overview

How many solar and wind projects does ACWA Power have?

With the new plants, ACWA Power's domestic solar and wind portfolio rises to 21 projects totaling over 34 GW, while its global renewable energy portfolio now surpasses 51.9 GW.

How many solar and wind projects will Saudi Arabia have?

Seven utility-scale solar and wind projects will add 15 GW to Saudi Arabia's grid, with financial close targeted for Q3 2025 and operations starting between late 2027 and early 2028.

Will PIF deliver 70% of Saudi Arabia's renewable capacity by 2030?

The agreement supports PIF's commitment to deliver 70% of Saudi Arabia's renewable capacity by 2030. It also demonstrates the sovereign fund's aim to catalyze the energy transition through partnerships that expand local supply chains and drive economic diversification.
