

24 hours solar powered 3 watt water pump

Overview

What is a 3 inch 900 watt solar water pump?

This 3 inch 900 watt solar-powered water pump is an environmentally friendly and energy-saving solution designed to use the electricity generated by solar panels to move water. It adopts advanced solar integration design to ensure efficient energy conversion and reduce dependence on traditional power sources.

What is a solar-powered water pump?

As a trusted solar-powered water pump factory, we provide flexible OEM/ODM services, fast delivery, and professional technical support to our distribution partners. This 3 inch 900 watt solar-powered water pump is an environmentally friendly and energy-saving solution designed to use the electricity generated by solar panels to move water.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How to use a solar water pump?

The Sunbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.
