

# 300wh power station in China in Manila

## Overview

---

What is a GW power plant in the Philippines?

Strategically located in the Philippines, the comprehensive development is designed to harness substantial renewable energy resources, boasting a total planned capacity of 3.5 gigawatts (GW) of photovoltaic (PV) power and 4.5 gigawatt-hours (GWh) of energy storage.

How will powerchina help the Philippines achieve a green energy transition?

The project will significantly alleviate local power supply shortages, helping the Philippines achieve a green energy transition. It will also contribute to the economic and social development of the Philippines and improve the well-being of local people. The project marks the third collaboration between POWERCHINA and Ayala Group.

Will Terra become the largest integrated photovoltaic power station in Southeast Asia?

This project marks a significant milestone as Terra is poised to become the largest integrated photovoltaic and energy storage power station in Southeast Asia.

Why is powerchina partnering with Ayala Group?

The project marks the third collaboration between POWERCHINA and Ayala Group. It is also yet another accomplishment of POWERCHINA in driving market growth through high-quality performance, and will continue to consolidate and expand POWERCHINA's status as the largest new energy power contractor in the Philippines.
