

350kw uninterruptible power supply

Overview

What is a 650V/390W uninterruptible power supply?

The 650V/390W uninterruptible power supply (UPS) features an Ecologic battery backup. It offers an automatic power saving mode and a multifunctional LCD panel, making it modern and convenient. This UPS uses a simulated sine wave output to protect workstations, network devices, and home entertainment equipment.

What is a 3kva uninterruptible power supply?

3kVA uninterruptible power supplies are designed to power loads up to 3kVA but the kilo-Watt loading will depend on the UPS output power factor. Typical loads for a 3kVA UPS include file servers, storage devices IT networks and VoIP telecoms systems.

What is an uninterruptible power supply?

An Uninterruptible Power Supply is a battery backup (usually lithium-ion) which provides power to connected devices when their power source fails. Power failure can be a simple power outage or some other factor that might cause voltage to drop below the acceptable level. Some UPS devices are also designed to protect against power surges.

How do I Choose an uninterruptible power supply for DC applications?

Our uninterruptible power supplies for DC applications provide reliable protection against supply interruptions. Select the appropriate DC UPS for your application. Our uninterruptible power supplies for AC applications provide a pure sine curve at the output. Select the ideal AC UPS and ensure superior system availability.
