

4 kW solar panel

Overview

How much does a 4 kW solar panel cost?

A 4 kW solar panel system costs \$11,200 in 2025 before incentives. A 4 kW solar panel system produces about 5,808 kWh of electricity annually, but the exact amount depends on where you live and how much sun you get. DIYing a 4 kW solar panel system usually isn't your best bet: You're much better off hiring a professional solar company.

What is a 4kW Solar System?

A 4kW Solar System is a complete PV solar power system that includes solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans, and instructions. These grid-connected solar kits are suitable for homes or businesses and provide everything needed to set up the system quickly.

What is a 4 kW solar panel system?

A 4 kW solar panel system is great for a three-bedroom property with an average electricity consumption of 3,000 kWh per year. It'll shrink your energy bills, reduce your carbon emissions, and because you'll be generating your own clean energy, you can limit your reliance on the grid.

Where can I find a 4 kW solar system for sale?

SunWatts offers affordable 4 kW PV systems for sale, featuring daily updates with the lowest prices on solar panels. These 4kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans, and instructions.
