

500v solar container lithium battery pack

Overview

How much does an energy storage bank cost?

Complete 500kW 500V 1000Ah Stand-Alone Energy Storage Bank 10 Year Factory Warranty 20 Year Design Life \$398,400 - FOB China Price Ready to ship in six weeks Five-week Ocean freight shipping Free installation assistance by phone or email! The energy storage system consists of a battery pack, battery management system (BMS), and battery charger.

What are the features of high voltage lithium battery system?

1. 500V 150kWh high voltage lithium battery system, works with inverter, can connect with solar PV array, wind turbine and generator. 2. Key features of high voltage energy storage battery Support different powering source, such solar, wind and generator. Modular design with different density, suits all scenarios.

How long should the battery be stored?

If the battery need be stored for a long time, the voltage should be at 50%SOC, and stored in the condition as storage proposal. It needs at least one charge & discharge cycle every six months. We warmly welcome OEM design inquiry!
