

# **Are there any 5G base stations in Seoul**

## Overview

---

How many 5G base stations does South Korea have?

In the report, South Korea ranked first among 29 countries, including non-OECD members such as China and the European Union, in “5G base station deployment.” The country recorded 593 5G base stations per 100,000 inhabitants, significantly surpassing Lithuania (328) and Finland (251).

Does South Korea have 5G?

Earlier this year, the Korean regulator, the Ministry of Science and ICT (MSIT) announced that South Korea had attained nationwide 5G coverage. MSIT allocated wide bands to each of the three mobile operators, KT, SK Telecom and LG U+, with the former two receiving 100 MHz, and the latter initially receiving 80 MHz.

How many 5G base stations are there in India?

The country’s three operators have deployed 166,250 5G base stations which is approximately 19% of the country’s 870,000 4G base stations. Deploying a new network technology is expensive for mobile operators.

Do you need a subscription to use 5G in South Korea?

A paid subscription is required for full access. As of 2019, South Korean carrier KT Telecom was planning to install around 12.7 thousand 5G base stations in 2022. South Korea introduced commercial 5G in April 2019.
