

Are there any hydrogen energy stations in Europe

Overview

What is the European hydrogen refuelling station availability system?

The European Hydrogen Refuelling Station Availability System provides a free, reliable, safe and ready to use data service on hydrogen refuelling stations in Europe.

How can I explore the European hydrogen market?

Visually explore the European hydrogen market through our customisable and interactive geomap. This customisable geomap brings together data on:
Location and main attributes of hydrogen production plants (see note 1).
Location and dispenser type of publicly accessible and operational hydrogen refuelling stations in Europe.

How many hydrogen projects are there in Europe?

In particular, the most recent Projects of Common Interest and Mutual Interest (PCI/PMI) list adopted in November 2023 demonstrated the degree to which European policy has shifted, with as many as 65 of 166 projects related to hydrogen.

Where can I find information on hydrogen refuelling stations?

LBST has operated the database h2stations.org since 2005, offering the most comprehensive information on hydrogen refuelling stations worldwide. Data is collected and updated continuously from multiple sources on a best effort basis.
