

# **Austria Air Energy Storage Power Generation Company**

## Overview

---

Who is Rag Austria AG?

RAG Austria AG is Austria's largest energy storage company, and one of Europe's leading gas storage facility operators. Our business focus is market driven storage, conversion and conditioning of energy in gaseous forms. We also develop leading edge energy technologies related to green gas like hydrogen that partner renewables.

What does austriaenergy do?

Working in harmony with nature and generating competitively priced renewable energy; we are entering the next stage of the energy transition by producing green hydrogen (H<sub>2</sub>) and green ammonia (NH<sub>3</sub>). AustriaEnergy has significant experience in the site development and technology integration of renewable energy projects.

Where is the austriaenergy group located?

The AustriaEnergy Group with its headquarters in Vienna, Austria, historically being present in markets like Spain, Italy, Bulgaria.

How will energieallianz Austria contribute to the green energy transition?

From June 2025 until the end of 2026, the hydrogen plant will be supplied with three gigawatt hours of green electricity from 100 percent Austrian renewable sources every year. Through this cooperation with RAG Austria, ENERGIEALLIANZ Austria is strengthening its commitment to green hydrogen as a central component of the Austrian energy transition.
