

BESS Cebu Philippines sells brand new uninterruptible power supply

Overview

Why is Aboitiz Power launching a hybrid Bess?

The hybrid BESS forms part of Aboitiz Power's broader transition strategy to support the Philippines' renewable energy roadmap. Congressman Chan's policy support is expected to accelerate investments in energy infrastructure across Central Visayas.

Where will the Bess rise in Mactan - Lapu-Lapu City?

The BESS will rise within the compound of EAUC, a subsidiary of Therma Power Inc. under AboitizPower, which operates a 50-MW bunker oil-fired plant inside the Mactan Export Processing Zone I in Lapu-Lapu City.

What is EAUC hybrid Bess?

"The EAUC hybrid BESS will help in the stability of the power supply, and more so as the share of variable renewable energy increases in our power mix." Designed for high availability, hybrid BESS are capable of operating through maintenance cycles to maintain consistent grid support.

Why is EAUC launching a hybrid battery project in Visayas?

As the Visayas continues to grow its economy, EAUC's upcoming hybrid battery project marks a meaningful step toward a more flexible and stable grid, reflecting AboitizPower's broader push to modernize the country's power infrastructure with smarter, more responsive energy solutions.
