

# **Bahamas New Energy solar Module Prices**

## Overview

---

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

Will the Bahamas have a solar water heating system?

In the next decade, the Bahamas aims to have solar water heating systems on 20% to 30% of all households, which has the potential of adding 200 GWh of heat for water per year. According to preliminary assessments, wind and solar resources offer the greatest potential for renewable energy development in the Bahamas.

What is the Bahamas national energy policy?

The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill.

How much does electricity cost in the Bahamas?

With respect to electricity rates on the affected islands, BPL charges between 10.95 and 14.95 cents per kWh, while GBPC charges between 17.56 and 26.06 cents per kWh. Electricity prices in The Bahamas also include an additional varying fuel surcharge based on the cost of the fuel used in generating power during the relevant period.
