South Ossetia occupies the southern slopes of the Greater Caucasus mountains. The region is populated largely (about two-thirds) by Ossetes, a Caucasian people speaking an eastern Iranian language. (Many Ossetes also live in the neighbouring republic of North Ossetia–Alania in Russia, which occupies the northern slopes of the Greater Caucasus.).

What is South Ossetia known for?

South Ossetia is deeply intersected by rivers, which are harnessed for hydroelectric power. The vast majority of the region lies more than 3,300 feet (1,000 metres) above sea level, and only about one-tenth of its area is cultivated. Grain, fruit, and vines are grown, partly under irrigation.

Where do Ossetes live?

(Many Ossetes also live in the neighbouring republic of North Ossetia–Alania in Russia, which occupies the northern slopes of the Greater Caucasus.) Most of the remaining inhabitants of South Ossetia are Georgians. Its capital is Tskhinvali. Pop. (2014) 53,532; (2016 est.) 53,000.

Base stations of South Ossetian telecommunications operators

Solar Powered Cellular Base Stations: Current Scenario, ...

Dec 16, 2015 · Cellular base stations powered by renewable energy sources such as solar power have emerged as one of the promising solutions to these issues.

Solar Powered Cellular Base Stations: Current ...

Dec 16, 2015 · Cellular base stations powered by renewable energy sources such as solar power have emerged as one of the promising solutions to ...

How many Cell Sites and Base Stations Worldwide?

Mar 10, 2023 · In South Korea, according to the Ministry of Science and ICT and the mobile communication industry, as of December 2021, had 460,000 5G wireless stations of which, ...

South Korea LTE Small Base Station Market High-velocity ...

5 days ago · How are telecom operators leveraging LTE small base stations to improve their service offerings? Telecom operators are leveraging LTE small base stations to enhance ...

Optimal Solar Power System for Remote ...

Sep 15, 2016 · This paper aims to address both the sustainability and environmental issues for cellular base stations in off-grid sites. For cellular ...

Base Station and Population Coverage

Oct 30, 2025 · Number of base stations deployed and coverage of market population worldwide. Includes summaries and data tables for BTS and NodeB and population coverage.

South Ossetia , Map, History, & Recognition

Nov 13, 2025 · South Ossetia, autonomous republic in Georgia that declared independence in 2008. Only a few countries--most notably Russia, which ...

South Ossetia Gets Connected , Institute for War and Peace ...

Aug 2, 2025 · South Ossetia is a chessboard of Georgian and Ossetian villages with differing allegiances. Ostelecom's coverage area includes Georgian villages, but residents there ...

South Ossetia communication base station installation costs

What is a communication base station? In the vast telecommunications network, communication base stations play a frontline role. Positioned closest to end users, they serve as gateways for ...

Optimal Solar Power System for Remote Telecommunication Base Stations

Sep 15, 2016 · This paper aims to address both the sustainability and environmental issues for cellular base stations in off-grid sites. For cellular network operators, decreasing the ...

Optimal Solar Power System for Remote ...

Jan 24, 2019 · Abstract: This paper aims to address both the sustainability and environmental issues for cellular base stations in off-grid sites. For cellular network operators, decreasing the ...

South Ossetia , Map, History, & Recognition , Britannica

Nov 13, 2025 · South Ossetia, autonomous republic in Georgia that declared independence in 2008. Only a few countries--most notably Russia, which maintains a military presence in South ...

How many Cell Sites and Base Stations ...

Mar 10, 2023 · In South Korea, according to the Ministry of Science and ICT and the mobile communication industry, as of December 2021, had ...

Energy performance of off-grid green cellular base stations

Aug 1, 2024 · A major drawback to deploying off-grid base stations powered by renewable energy sources is the intermittent nature of these sources, resulting in erratic and unpredictable ...
