

Basseterre High Capacity Uninterruptible Power Supply

Overview

What is an uninterruptible power supply (UPS)?

An Uninterruptible Power Supply (UPS) is way more than just a surge protector, it's meant to save your time as well as your devices. These surge protectors with a built-in backup battery provide a safety net by delivering continuous power during an outage, giving you time to save your work and safely shut down your equipment.

What are the best ups with built-in backup batteries in 2025?

So, whether you're protecting a home office, gaming setup, network infrastructure, or security devices, here are the best UPS units with built-in backup batteries available in 2025. The APC Back-UPS Pro 1500VA is a top-tier choice for those needing reliable power backup for their critical devices.

Which APC UPS battery backup surge protector is right for You?

For those seeking a budget-friendly option, the APC UPS Battery Backup Surge Protector BE425M offers fantastic value without compromising on essential features. With a 425VA/225W capacity, it provides enough power to safely shut down computers and small electronics during outages.
