

Belarusian commercial and industrial energy storage exports

Overview

What is the energy sector in Belarus?

Belarus's energy sector is dominated by state-owned companies operating under supervision of the Ministry of Energy in electricity, gas and part of the heat sector, and under BelNefteKhim (Belarus State Concern for Oil and Chemistry) in the oil, refining and petrochemicals sector.

Why is Belarus a great exporter?

Export successes of the Belarusian military industry are not only connected with Russia's attempts to seize Ukrainian territories. Belarus also supplies arms to Uzbekistan, for example. Between 2017 and 2023, trade between the countries increased by almost three and a half times. Mainly at the expense of "sector-specific goods".

Why does Belarus need control over the energy sector?

The government believes that having control over the entire energy sector will guarantee a secure and stable energy supply. Because of its modest natural resources, Belarus relies on imports from Russia to meet most of its energy needs.

Which country produces the most crude oil in Belarus?

Russia is the main supplier of crude oil refined in Belarus, and in turn Belarus is Ukraine's primary supplier of oil products. Total energy consumption (measured by total primary energy supply) in Belarus was 27.0 Mtoe in 2018, comparable with consumption in Norway and Hungary.

Belarusian commercial and industrial energy storage exports

Belarusian commercial and industrial energy storage exports

What does Belarus import? Belarusian import is mainly composed of energy resources (oil and natural gas), raw materials and components (metals and metal products, raw materials for ...

Belarusian Electrochemical Energy Storage ...

Jun 21, 2025 · Market Status The electrochemical energy storage market in Belarus is in its early stages, with limited publicly available data on ...
