

Belarusian electricity industry targets 5g base stations

Overview

Is Belarus launching a 5G test zone?

TeleGeography's GlobalComms Database writes that in June last year, Belarus' national infrastructure operator Belarusian Cloud Technologies (beCloud) announced the ramping up of its 5G test zones in the country, as it entered the second stage of widescale testing ahead of the commercial launch of the technology.

Does MTS Belarus have a 4G network?

MTS Belarus said its LTE-800 network covers 'thousands of settlements' across Belarus. Previously, it was launched in Vitebsk, Gomel, Mogilev and Minsk regions. In fiscal 2022, it plans to provide dense 4G coverage to the western regions of the country - e.g. the Brest and Grodno regions.

Which mobile networks are operating in Belarus?

These mobile networks are operating in Belarus in 2G, 3G and 4G/LTE: MTS [MTC] (owned by Beltelecom & MTS Russia), A1 (formerly Velcom, owned by A1 Telekom Austria Group), Life:) (mostly owned by Turkcell) for 4G/LTE: beCloud (partly state-owned, providing only 4G/LTE, for all providers above).

Does Belarus have 4G in 2022?

In fiscal 2022, it plans to provide dense 4G coverage to the western regions of the country - e.g. the Brest and Grodno regions. A1 is the strongest competitor of MTS in Belarus with almost the same 2G/3G coverage. About 76% of the population are covered by 4G/LTE in 2020. It was called Velcom before.
