

Belgian lithium-ion solar container battery application

Overview

Is totalenergies launching a second battery storage project in Belgium?

On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the company announced the development of a second similar project in Belgium. The new project will be located at TotalEnergies' depot in Feluy, featuring a power rating of 25 MW and a capacity of 75 MWh.

How much money will Saft invest in a lithium-ion storage project?

The project will utilize forty Intensium Max High Energy lithium-ion containers supplied by Saft, with start-up expected by the end of 2025. The combined investment for the two projects amounts to nearly €70 million. These initiatives will increase TotalEnergies' storage capacity in Belgium to 50 MW and 150 MWh.

Who will supply a 40-intensium Max high energy lithium-ion container?

The batteries, 40 Intensium Max High Energy lithium-ion containers, will be supplied by Saft, the battery subsidiary of TotalEnergies, confirming its position as European leader in industrial-scale stationary storage with this project.

Where are battery recharging points located in Belgium?

The company operates recharging points in major cities such as Antwerp, Brussels, and Ghent. A new 25 MW, 75 MWh battery storage project in Feluy will boost Belgium's storage capacity to 50 MW, 150 MWh, aiding grid resilience and renewable energy growth. Completion expected by end of 2025.
