Overview

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

What is a PV curtain wall?

The PV curtain wall is the most typical one in the integrated application of PV building. It combines PV power generation technology with curtain wall technology, which uses special resin materials to insert solar cells between glass materials and convert solar energy into electricity through the panels for use by enterprises.

What is on-grid PV curtain wall?

On-Grid PV curtain wall has the dual characteristics of glass building materials and PV power generation. As a building material for power generation, PV curtain wall is mainly applied to the lighting roof, curtain wall facade, shading wall and other areas of commercial high-rise buildings.
