

Bloemfontein 200W solar street light manufacturer wholesale

Overview

What are solar street lights?

Solar street lights are lighting systems that rely on solar power to deliver illumination. Such a first lighting system was developed in Japan, and then it spread all across into other countries.

Is clodesun a good solar street light supplier?

Clodesun has been a reputable supplier for the South African market for years. Clodesun launched a new solar street light product which they call “ foldable design all-in-one solar street light this year. The product was designed by their German team for almost one year and tested for two years before its actual launch.

Who is Inlux solar?

As a dedicated solar street light manufacturer, Inlux Solar provides OEM/ODM engineering, end-to-end quality control, and the documentation required for government tenders. Our team supports layouts and photometrics (IES/DIALux), wind-load and pole matching, and regional compliance.

Where can solar streetlights be used?

Ideal where panel orientation is critical, these solar streetlights suit highways, coastal roads and parking lot upgrades, offering energy saving operation and easy maintenance. Compact, plug-and-play solar lighting systems with integrated PV, Solar Battery, and controller.
