

# **Boston Site Energy Storage BESS Project Bidding**

## Overview

---

What is the Bess project?

The two transmission lines would connect the BESS with the Eversource Mystic Substation, which is located at 173 Alford Street in Boston. The BESS and associated infrastructure are collectively referred to herein as the “Project.” A Project description and a map of the Project Site are provided below.

What is technical assistance for distributed energy projects?

For assistance customizing these specifications to your project's needs, please reach out through the Technical Assistance for Distributed Energy Projects portal. Provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery energy storage systems (BESS) project development.

What is the Bess consortium?

The BESS Consortium is a platform which aims to catalyze system change through market shaping and momentum building. Benefits to joining the Consortium as a Resource, Technical or Industry Partner are: 5 takeaways: what we learned at London Climate.

What is a Bess checklist?

The checklist items contained within are intended for use in procurement of commercial scale lithium-ion BESS, although they may be used more generally for other BESS technologies.

## Boston Site Energy Storage BESS Project Bidding

---

Massachusetts issues RFP seeking 1,500MW ...

Aug 12, 2025 · A solar-plus-storage project in the US state of Massachusetts. Image: US Department of Energy Massachusetts's electric distribution ...
