

# **Brushed power tool solar container lithium battery**

## Overview

---

How a solar panel electric cleaning brush works?

Brush head design: Solar panel electric cleaning brush is equipped with a motor and a water spray pipe. The 24V DC high-power drive motor provides powerful cleaning power. It automatically rotates for cleaning and can easily remove stains without any effort. 4.

Why should you choose a solar cleaning brush?

1. Bristles Rotation speed:400rpm, The roller brush saves time and effort in your work, improves the cleaning efficiency of solar photovoltaic panels, reduces cleaning time, and is more convenient than ordinary manual cleaning brushes. 2. Cleaning mode: Solar cleaning brushes can adapt to different cleaning needs.

How long can a lithium battery power supply last?

Lithium battery DC power supply set (24V 20Ah, with battery backpack), which provides convenient wireless operation and can be used for about 6-7 hours when fully charged. Dual power supply option combines the advantages of power supply and battery models to provide more flexibility.
