## Overview

---

Is Romania planning a second lithium-ion battery factory?

ian@romania-insider.com Romania's lithium-ion battery manufacturer Prime Batteries Technology, founded and controlled by Romanian entrepreneur Adrian Polec, confirmed plans for a second factory with an intended capacity of 6 GWh according to Profit.ro. The company reached a production capacity of 2.3 GWh of power.

Who is prime batteries?

Mainly commercial large-scale ESS (DSO; EPC; Renewables) About us: Prime Batteries is one of the leading energy storage solutions manufacturers in the European Union, established in 2016.

How important is the battery industry in Romania?

The battery industry in Romania presents several key considerations for those interested in researching companies in this field. First, understanding the regulatory environment is crucial, as the country aligns with European Union standards for battery production and recycling, emphasizing sustainability and environmental responsibility.

Why is Romania a good place to buy a battery?

Additionally, the competitive landscape includes both local manufacturers and international players, which can influence market dynamics and pricing. Romania's strategic location in Eastern Europe also enhances its global market relevance, making it an attractive hub for battery production and distribution.
