

# **Buenos Aires solar container communication station Wind Power Environmental Protection**

## Overview

---

Is the southwest of Buenos Aires a key pillar in wind energy?

The Southwest of Buenos Aires remains a key pillar in wind energy. The Southwest of Buenos Aires continues to be a key player in wind energy, hosting 18 out of the 69 wind farms across the country. In October 2024, these projects injected 330 GWh of electricity, equivalent to 23.1% of the total renewable energy nationwide.

Can Argentina decarbonize its power sector?

Argentina's vast solar, wind, and hydroelectric renewable energy potential, give it the possibility to decarbonize its power sector and support its COP26 goal of increasing the share of renewable energy in its national energy matrix to 30 percent by 2030.

Is Buenos Aires a good place to invest in wind energy?

Although this figure is significant, it represents a setback of 8.7% compared to the same month of the previous year. Despite the slowdown, a report from the Regional Center for Economic Studies of Bahía Blanca, Argentina highlights that the province of Buenos Aires remains essential in wind energy on the national scene.

How many wind farms are there in Buenos Aires?

As of October 2024, Buenos Aires had 26 wind farms, surpassed only by the Patagonian region with 28 projects. With 18 ventures in our area, the region contributes one out of every four parks in the country and injects 23.1% of the total renewable energy.
