Trina Solar was founded by Gao Jifan in 1997. This company has grown from one of the first Photovoltaic enterprises in China to become a global leader in the solar technology and manufacturing industry. They were ranked on the list of the top 500 Private companies in China. Trina Solar delivered over 83 GW of solar modules globally by June 30, 2021.

How much do solar panels cost?

In addition, the specifications of the panels (such as power) and the cost of installation also play a role. On average, you pay around €500 to €600 per solar panel, including installation. The cost of solar panels depends on the number of panels and the power per panel. In general, the more panels you buy, the cheaper the price per panel becomes.
