

# **Can the battery cabinet be placed in the computer room**

## Overview

---

Can a battery be installed in a computer room?

Sometimes they are installed in the same room as the UPS (i.e., electrical equipment room). Local or regional codes may dictate whether batteries are permitted in an electrical room. Smaller UPS systems (e.g, up to 250 kVA) are commonly installed directly in the computer room along with their respective battery cabinets.

Do battery cabinets need to be locked?

Battery cabinets must enclose the batteries behind locked doors accessible only to authorized personnel. As long as the cabinets are kept locked, they can be located in a computer room or other rooms accessible by non-battery technicians.

What is a battery storage cabinet / cubicle?

It is for Battery Storage for Uninterruptible Power Supply System in Computer Room and Data Center. The Design of the cabinet / cubicle can be fabricated from 2-tier to 5-tier to suit the space in the Computer Room. The cabinet always give better outlook and it is more safety when placed in the Computer Room.

Can a battery be installed on an open rack?

Batteries installed on open racks almost always require installation in a battery room. Sometimes they are installed in the same room as the UPS (i.e., electrical equipment room). Local or regional codes may dictate whether batteries are permitted in an electrical room.
