

Canberra Eco-friendly Solar System Prices

Overview

How much does a 5kw Solar System cost in Canberra?

The cost of a 5kW solar panel system will depend on the quality of panels and inverter installed and the company doing the job. For the 6kW solar system in Canberra ACT (the most popular size Australia-wide), the average cost in Canberra is around \$7,387. The table below shows the average cost of solar PV systems of different sizes in Canberra.

How much do solar panels cost in Canberra?

According to Solar Choice, solar panels of sizes ranging from 3kW to 10kW can set you back \$4,850 to \$8,520 on average in Canberra. Premium solar panel systems with better quality and service will cost you more. The brand and quality of hardware, the installer's rates, and the rebates will influence the price you pay for a solar system.

Why should you choose a solar panel system in Canberra?

With over 300 sunny days a year, a well-sized solar panel system in Canberra can significantly reduce your energy bills. Whether you're located in the heart of the city or on the outskirts, Ads Solar can customise the perfect system for your property — residential or commercial. Here is why Ads Solar is your best choice:.

Should you install solar panels first in Canberra?

Many solar panels Canberra customers are installing solar panels first to lower power bills and keeping their options open to add a battery once prices come down (we expect they will over the next few years).
