

Canberra Solar Off-solar container grid inverter

Overview

Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

Does Commodore Australia offer off-grid solar power?

Reliable Off-Grid Power. No More Blackouts! Commodore Australia will help you design and install the perfect solar power system for your rural or remote property. We've been designing and manufacturing state-of-the-art off-grid solar solutions since 2011. Outdoor or indoor installation - the choice is up to you.

What is an off-grid Solar System?

Off-Grid solar systems are self sufficient and function entirely free of the national electricity grid. They combine solar panels, inverters, batteries, and backup generators for emergencies, offering energy independence like never before. Solar panels power your home during daylight hours. Batteries handle your energy needs at night.

How can off-grid energy Australia help you?

We can design your off-grid system with the inverters and controllers that are perfect for your needs and help you gain independence from the grid. Off-Grid Energy Australia utilise a variety of inverter technologies from leading Australian and International suppliers to accommodate for a range of controller applications.

Canberra Solar Off-solar container grid inverter

Solar Power Systems for Homes & Living Off Grid
