

Canberra containerized energy storage tank supplier

Overview

What are Essco energy containerised tanks?

Essco Energy containerised tanks are robust and versatile fuel storage solutions, engineered to meet Australian and UL Standards (AS1940, AS1692, UL142). These tanks are self-bunded, offering double-walled steel construction for maximum security and durability.

Why should you choose a container energy storage system?

Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable integration, backup power, and off-grid energy supply. **Why Choose a Container Energy Storage System?**

All-in-One Power Solution – Integrated battery storage, inverter systems, and control units in one secure container.

Who is stor-energy?

Stor-Energy is a leading and specialist developer, owner and operator of large-scale battery storage systems across Australia's national electricity market. The company, CitiPower and Powercor, empowers communities by providing them with choices on how to generate, store, use, and sell energy, supporting the transition to a clean energy future.

What is a Bess energy storage system?

It is designed to provide backup power, intelligent energy storage management and integration with a wide variety of inputs and outputs. Available in either a 10ft, 20ft or 40ft ISO CSC container, the BESS is designed to be cost-effective, safe, easy to transport, scalable and integrated to the specific energy requirements of our clients.
