

Chad communication operator small base station

Overview

What is Chad's telecommunications market like?

Overview Chad's telecommunications market is one of the least developed in the world but is seeing rapid growth and investment. The Government of Chad and foreign investors are focused on developing mobile cellular technology and fiberoptic infrastructure to improve web connectivity and digitize documents and services.

Is Chad lagging behind in the development of telecommunications?

Compared to the United States, Chad is massively lagging behind in the development of telecommunications. Under the country code +235, there were a total of 12.09 million connections in 2022. Among them were 12.09 million mobile phones, which corresponds to an average of 0.68 per person. In the US, this figure is 1.1 mobile phones per person.

How cellular networks work in Chad?

Mobile networks offer basic mobile data services using GPRS and EDGE technology as well as 3G/4G. Maintaining cellular networks in Chad is difficult and expensive due to harsh weather conditions and erratic electricity. The supply of handsets and tablets has not kept up with growing demand.

Is Chad a good place to invest in telecom services?

Nevertheless, despite difficult operating conditions, large scale poverty and low spending power, Chad's telecom market offers some potential for investors to develop services given the low starting base.
