

# Chile EK Power Storage System

## Overview

---

Where are Chile's battery energy storage facilities located?

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage. The greatest installed capacity is found in the northern regions of Antofagasta and Tarapacá, the country's solar powerhouses.

How many energy storage projects are in Chile?

Currently, 36 of the 129 large-scale projects Latin America projects with an energy storage component under development are in Chile, including 32 out of 71 of the region's early works projects. The storage technologies either in use or being considered include:.

Will Chile be able to develop energy storage projects in 2024?

In 2022, Chile passed an energy storage and electromobility bill, which made stand-alone storage projects profitable, but the market is still expecting new rules on capacity payment for storage projects, which are to be approved in 2024. Chile has also put in place an auction procedure to award public land for the development of BESS projects.

Why is Chile pursuing energy storage in Antofagasta?

Chilean president Gabriel Boric (centre) at the inauguration of an energy storage plant in the northern region of Antofagasta in April 2024. Chile has strong conditions for wind and solar energy, and is pursuing storage to help overcome intermittent supply (Image: Ximena Navarro / Dirección de Prensa, Presidencia de la República de Chile)

## Chile EK Power Storage System

---

Energy storage is a challenge and an opportunity for Chile

Aug 15, 2024 · The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a significant challenge, alongside huge ...

---

Energy storage , EDF Chile

Nov 21, 2025 · EDF power solutions Chile is at the forefront of developing both short- and long-duration storage projects, including pumped storage plants and other innovative technologies. ...

---

How Energy Storage is Powering Chile's Sustainable Future

Oct 15, 2024 · The Opportunity and Challenge Chile possesses some of the world's best conditions for solar power generation, particularly in the Atacama Desert, which experiences ...

---

Chile makes progress on energy storage with ...

Dec 7, 2025 · With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation ...

---

Chile Leads Latin America with the Largest ...

Chile has taken a significant step in the development of clean energy with the inauguration of the largest battery energy storage system (BESS) in Latin ...

---

Chile makes progress on energy storage with 20+ approved ...

Dec 7, 2025 · With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and efficiency in Latin America.

---

Energy storage is a challenge and an ...

Aug 15, 2024 · The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a ...
