

# **China Southern Power Grid solar Wind Power Energy Storage Charging Pile**

## Overview

---

How much did China Southern Power Invest in charging infrastructure?

China Southern Power had already invested CNY3.2 billion on the construction of 31,600 charging piles as of December, which had provided 450 million kilowatt-hours of energy by then. It invested CNY16 million in charging infrastructure in the first quarter, when it opened five charging stations and switched on 86 charging piles.

Which SOE restructured the electricity grid?

the electricity grid was restructured into two SOEs: The State Grid Corporation and The China Southern Power Grid. State Grid Corporation accounts for 80% of electricity transmission, while China Southern Power Grid accounts for the southern half of China (Sandalow et al.

How much will China Southern power grid invest in electric vehicles?

(Yicai Global) April 10 -- State-owned China Southern Power Grid plans to invest CNY25.1 billion (USD3.6 billion) over the next four years to acquire and build charging infrastructure for electric vehicles.

How many charging stations and piles will be built in China?

The Guangzhou-based firm, which supplies electricity to 254 million citizens in southern China, will conduct mergers and acquisitions to obtain and construct 150 charging stations and 380,000 piles, it said in a statement today.
