

China distribution switchgear in New-Zealand

Overview

Who is Western switchgear?

We provide a full-service solution for the design, manufacturing and installation of electrical control systems and electrical switchboards throughout New Zealand. Formed in 1985, Western Switchgear answered a need for high quality, custom built, low voltage switchboards, motor control centres, and control & distribution panels.

Where can I find the best switchgear in NZ?

For the best range of switchgear in NZ, talk to BREMCA. Eaton is a power management company made up of over 97,000 employees, doing business in more than 175 countries. Our energy-efficient products and services help our customers effectively manage electrical, hydraulic and mechanical power more reliably, efficiently, safely and sustainably.

What is a switchgear used for?

It includes in one unit two switches that can connect the load to either or both main conductors, and a fusible switch or circuit breaker and switch that feed a distribution transformer. This type of switchgear is used for medium-voltage power distribution, from 7.2kV to about 36kV volts.

What is air insulated switchgear?

Air insulated switchgear (AIS) is an auxiliary distribution unit used to disperse the electrical energy of the main transmission unit fed by a large distribution transformer. adopts the air as the insulation media designed voltage ranging from 11KV to 36KV medium voltage power distribution system.
