

China upgrade circuit breaker in Melbourne

Overview

Do you need a switchboard upgrade in Melbourne?

A commercial building in Melbourne may require a switchboard upgrade if the switchboard is overcrowded and cannot accommodate additional devices that require a dedicated circuit. Modern switchboards with circuit breakers have been installed in most commercial structures, but upgrades with room for future expansion may be necessary.

Should I replace or install my circuit breaker in Melbourne?

A regularly tripping circuit breaker is a nuisance for anyone. If you decide whether to replace or install your circuit breaker in Melbourne, let our team at Precision Electrical & Plumbing assist you. You can reach us by dialling our hotline (03) 9511 1336. You can also book non-urgent appointments online through our website.

How much does a 3 phase power upgrade cost in Melbourne?

It delivers more consistent power and handles large loads with ease. Expect to pay between \$5,000 and \$8,000 for a standard 3-phase upgrade in Melbourne. Larger homes or trickier installs may cost more. Connection fees, underground cabling, and switchboard replacements are priced separately.

Can EV chargers overload a switchboard in Melbourne?

Melbourne homeowners are jumping on solar, and for good reason. But adding solar panels, battery storage, or an EV charger installation can overload your old switchboard if it's not upgraded first. Electric vehicle chargers usually need a dedicated 240V circuit.
