

# Croatia Communications Green Base Station Maintenance

## Overview

---

What is Croatia doing about digital and green technology?

The Government of Croatia, through the Ministry of Science, Education and Youth's Digital Innovation and Green Technology Project, supported by the World Bank, is seeking to address this gap in the policy mix and propel domestic digital and green technology creation.

Is Croatia ready for a digital and green transition?

Croatia continues its ambitious path towards the dual – digital and green – transition. Through the National Resilience and Recovery Plan (NRRP), Croatia has committed to an array of reforms focusing on resilient, inclusive, green, and digital recovery.

What does the green transition mean for Croatia?

At the same time, the green transition aims to promote solutions that enable a shift towards a climate-neutral and environmentally friendly economy. Croatia continues its ambitious path towards the dual – digital and green – transition.

What is Croatia's digital diagnostic policy brief?

By addressing key challenges and leveraging targeted interventions, Croatia aims to unlock the full potential of its digital landscape, fostering innovation, competitiveness, and resilience. The Digital Diagnostic Policy Brief (English) outlines how to achieve these next steps.

## Croatia Communications Green Base Station Maintenance
