

# **Danish affordable solar water pump transformation**

## Overview

---

Will Denmark increase water technology export by 20 billion DKK?

Water scarcity and water management are increasingly challenging also in Europe. This initiative supports the Danish Government's intention of increasing the Danish water technology export from 20 to 40 billion DKK before 2030.

Who are the partners of the Danish Water Alliance?

The Alliance is a part of The Trade Council at the Ministry of Foreign Affairs of Denmark, and the partners include public Danish water utilities, the Danish Environmental Protection Agency and leading technology and service providers.

What is WTA's new partnership with Danish water professionals?

The newest cooperation within WTA is the stationing of Danish water professionals in Rome, Madrid, Warszawa and Hamburg. The mission is to increase knowledge of sustainable water solutions that are successfully implemented in Danish utilities such as Aarhus Vand. Water scarcity and water management are increasingly challenging also in Europe.

What is the Danish Water Technology Alliance (WTA)?

The Danish Water Technology Alliance (WTA) is a Danish outreach program providing specialized know-how on innovative water technology solutions.
