

Danish container refrigerated generator

Overview

Which generator sets are best for refrigerated container units?

The most rugged, dependable and easy-to-operate generator sets for refrigerated container units. Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by road or rail worldwide.

Can a diesel generator be connected to a refrigerated container?

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source. Diesel Generator designed to mount on the front of a refrigerated container. Diesel Generator set designed to clip on to the front frame of a refrigerated container.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

What is a genset on a reefer container?

The Genset, also known as a Clip On Generator, is a handy unit that clips onto the chassis of a Reefer Container to provide power when an external source of power is not available, such as during transport. Our Gensets run on diesel, gasoline or gas. Disc type radial fan for cooling: Sealed large diameter rear bearing.
