

Discount Offer on 600kW Solar Container Solar Units in Israel

Overview

How many residential buildings in Israel have gone solar?

Only a handful of residential buildings in Israel have gone solar due to multiple obstacles, one of which is that a residents' committee cannot secure a bank loan. An apartment building fitted with solar panels (but not storage) in the southern city of Beersheba, through the Sun for All initiative. (Yuval Pan).

Could a green track Help a home install a 15 kilowatt solar system?

A green track already enables any home installing a 15-kilowatt system anywhere in the country to get to the front of the queue with minimum bureaucracy. Eifer told The Times of Israel it took just a few weeks from deciding to go solar to connect to the grid.

Could putting solar panels on a home save a lot of CO₂?

(Shlomi Amsalem/Government press office) Ron Eifer, in charge of sustainable energy at the ministry, said putting panels on the roof of a private home could save 12 tons of carbon dioxide emissions annually. Equivalent to the amount of CO₂ absorbed by 600 trees, this could offset three to four roundtrip flights to New York yearly.
