

Do the inverter and battery have a lifetime warranty

Overview

What is a solar inverter warranty?

Here's a breakdown of solar inverter warranties by major manufacturers: When you choose Enphase microinverters, you're backed by the Enphase warranty, which gives you 25 years of coverage—matching the lifespan of most solar panels. That means your entire solar system is protected long-term.

Are inverter warranties better than solar panels?

Unlike solar panel warranties, inverter product warranties are harder to compare apples-to-apples.

Why do solar inverters have a shorter warranty period?

That extra effort is why they tend to have shorter warranty periods. · Inverters act as the brain of your solar system. They convert DC electricity into AC power you can use in your home, and they're constantly monitoring and adjusting your system. Since they run constantly, they usually need replacing after about 10-15 years.

Does a string inverter have a warranty?

Most string inverters come with a 5- to 12-year warranty, though some manufacturers offer extended warranty options for added protection. Since a string inverter failure affects multiple solar panels at once, it can cause significant system downtime. Some warranties cover replacement costs, but labor and shipping fees may not always be included.

Do the inverter and battery have a lifetime warranty

Off-Grid Solar System Lifespan and Warranties: What to Expect

Wondering how long an off-grid solar system lasts? Learn the expected lifespan and warranty terms for solar panels, batteries, inverters, and charge controllers.
