

# **EU solar Energy Storage Inverter**

## Overview

---

How big is the European solar inverter market?

The European solar inverter market is set to grow from USD 2.85 billion in 2024 to USD 3.66 billion by 2029, with a growth rate of 5.06% annually. This growth is driven by government incentives, investments in solar energy, and a focus on reducing carbon emissions. Germany is the largest market, followed by the UK and France.

What are the benefits of solar inverter manufacturing in Europe?

Grid-forming abilities. Enhanced cyber-preparedness. Ensuring interoperability. Europe has a strong foundation in its inverter manufacturing industry. In 2023, there was equivalent of 82.1 GW of solar inverter manufacturing capacity in the EU (compared to around 60 GW of solar installed in the same period).

Where can I find a new solar inverter at Intersolar Europe?

Visitors to Intersolar Europe can experience these innovations firsthand at Solis' booth B3.430, from 7–9 May 2025. Established in 2005, Ginlong (Solis) Technologies (Stock Code: 300763. SZ) is one of the most experienced and largest manufacturers of PV string inverters.

Are European inverter manufacturers able to capture 20% of the market?

It is estimated that EU inverter manufacturers are only able to capture 20% of the market currently. Right now, European inverters have a critical opportunity to further tap into the technological advancements needed for the electrification and digitalisation of the energy system.
