

EU solar Exhibition and Energy Storage

Overview

ees Europe, along with the concurrent events Intersolar Europe, Power2Drive Europe, and EM-Power Europe, will take place from May 7-9 2025 at Messe München as part of The smarter E Europe, Europe's largest exhibition alliance for the energy industry. (hcn)Why should the UK and Europe attend the Energy Storage Summit?

The UK and Europe have a choice: move faster, co-ordinate, and scale the energy transition, or risk losing industrial leadership to those who will. The Energy Storage Summit is where decisions get made, ideas sharpen, alliances form, and the next phase of market design, financing models, and build-out strategy is forged.

What is EU PVSEC 2025?

The 42nd European Photovoltaic Solar Energy Conference and Exhibition (EU PVSEC 2025) is held from 22-26 September in Bilbao. It is the largest international gathering for photovoltaic research, technologies and applications.

What is the Energy Storage Summit?

The Energy Storage Summit is where decisions get made, ideas sharpen, alliances form, and the next phase of market design, financing models, and build-out strategy is forged. More than two thousand leaders from global power markets, defence, cloud and data, investment, mining, and manufacturing gather to do business.

What is EU PVSEC?

The world-renowned EU PVSEC is a science-to-science, business-to-business and science-to-industry platform with full focus on the global PV sector. For more than 40 years, it has been gathering the international PV community to conduct business, network and present and discuss the latest developments and innovations in photovoltaics.
