

# **Energy storage backup power supply in Porto Portugal**

## Overview

---

Does Portugal need a power grid stability & energy storage solution?

Portugal: The country aims to source over 90% of its power from domestic renewables by 2030, with significant contributions from wind and hydroelectric power. Despite these advancements, the blackout revealed the need for improved grid stability and energy storage solutions to handle unexpected disruptions.

Can storage replace thermal generation in Portugal?

The pursuit of economic viability by storage facility owners will inherently lead to charging during low-cost hours and discharging during hours that are more economically attractive. Storage can replace thermal generation in constraint markets, easing the grid and supporting Portugal's 2040 phase-out target.

What happened in Portugal during a power outage?

Portugal: Cities such as Lisbon, Porto, Coimbra, and Braga were impacted. The outage also caused disruptions in public transportation, communication networks, hospitals, and commercial centers, leading to widespread challenges for residents and businesses alike. Where Do Spain and Portugal Get Most of Their Electricity?

## Energy storage backup power supply in Porto Portugal
