

Energy storage projects under construction in Sierra Leone

Overview

Freetown, Sierra Leone | 10 April 2025: The Republic of Sierra Leone today announced the signing of a Memorandum of Understanding with Hecate Global Renewables (HGR), and Africa50 to develop 100 MW of Renewable Energy projects including Battery Energy Storage Systems (“BESS”). How can Sierra Leone improve its low electricity access rate?

Sierra Leone is taking significant steps to improve its low electricity access rate by committing to various renewable energy projects. These initiatives, driven by the country’s Presidential Initiative on Climate Change, Renewable Energy & Food Security (PI-CREF), include a major hydropower and solar PV project.

Does Sierra Leone have a solar project?

Sierra Leone launches the World Bank-backed RESPITE solar project, bringing clean energy to 28 underserved communities and boosting economic growth.

How will solar power help Sierra Leone achieve its energy goals?

Solar power, along with large-scale solar farms and hydroelectric projects, will be central to achieving this target. These efforts are part of Sierra Leone’s broader strategy to diversify its energy mix and reduce its reliance on fossil fuels.

What is in Sierra Leone's energy roadmap?

A key part of the roadmap is to incorporate Sierra Leone’s abundant renewable energy resources, ensuring a secure energy supply to rural communities and boosting the national economy. One of the most significant projects in this roadmap is the planned expansion of the Bumbuna Hydroelectric Dam.

Energy storage projects under construction in Sierra Leone

New energy storage project in Sierra Leone
