

# **Environmental project using Pristina collapsible container 50kW**

## Overview

---

Does Pristina have a sustainable future?

These include greater consideration of the impact of Pristina's growing urban footprint on sustainable development and renewed focus on the quality and number of open public spaces in the city given the role they can play to support green and climate-smart living.

Will Pristina become a Climate-Resilient City by 2040?

As a results, local leaders gained the skills and insights necessary to identify alternative policies and investments in energy, transport and urban planning that will help Pristina transition to a low carbon, climate-resilient city by 2040.

Could Pristina be a blueprint for sustainable urban communities?

According to Augustin Maria, Program Manager for the Gap Fund, what was done in Pristina could become a blueprint for the future of sustainable, climate-resilient urban communities globally.

How did the Gap Fund Help Pristina?

The Gap Fund supported training and technical assistance to city officials to review the urban planning, transport and energy investment and policy decisions outlined in Pristina's draft Municipal Development Plan (MDP) through the "Urban Performance" tool.
