

Factory price single breaker in London

Overview

Simple single-pole breakers typically range between £10 and £20, while more advanced types, such as GFCI and AFCI breakers, can cost more. How much does a circuit breaker installation cost?

The installation of a circuit breaker involves more than just the purchase of the unit, encompassing the setup and configuration within the electrical system. Typically, the installation costs range from £40 to £70 per hour, with the total cost influenced by the complexity of the task and the professional fees in your area.

How much does a GFCI breaker cost?

Simple single-pole breakers typically range between £10 and £20, while more advanced types, such as GFCI and AFCI breakers, can cost more. Factors like brand, specifications, and suitability for your specific system also play a significant role.

Does a consumer unit need a circuit breaker?

In contrast to fuse boxes, modern consumer units are supplied with circuit breakers rather than fuses. While these are less inclined to break, an older consumer unit may require a replacement of one or more of their circuit breakers.

How much does it cost to replace a fuse box?

These extra charges can significantly affect the overall cost, so being informed beforehand is beneficial. Removing old fuse box: Expect to pay approximately £75. This is often necessary to make way for a new installation. Earth bonding upgrade: Ranging from £150 to £300, this ensures your electrical system is safely grounded.
